

ZOONO[®]

Incredible Results In Poultry Trials

RESULTS AT A GLANCE

87% LESS PATHOGENS

Pathogen levels within a Zoono treated broiler shed were, on average, 87% lower than a traditionally treated shed.

60G

HEAVIER BIRDS

Average bird weight 60g more Zoono treated sheds. Average broiler shed holds 25,000 birds; Equates to additional 1,500 kilograms per shed.

10 TONNES LESS FOOD

Birds achieved additional weight increase consuming 10% (10 tonne) less food per shed, per cycle.
Birds expend less energy fighting bacteria;
Resulting in a greatly improved food conversion ratio.
